The Signature Spaces

Worlds designed to inspire

Three themed worlds — furniture, lighting and bathrooms — where complementary manufacturers and distributors present their products to the architects, designers, developers, contractors and retailers who specify projects.

The space is designed, built and lit before you arrive. You simply bring your products.

A TURNKEY SOLUTION

A professional, distinctive presence — without the cost or lead time of a custom booth.

THREE WORLDS

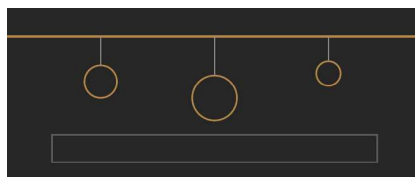

Mobilier & Cie, Ombre & Lumière, Point d'eau. Each has its own scenography and packages. You choose the square footage that suits your products.
